

Professional Speed Mentoring

Thursday 12th March 2019

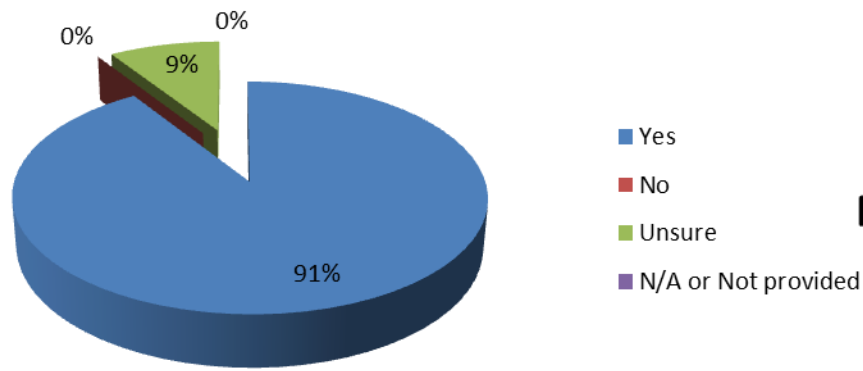

On Tuesday 12th March 2019 Kelmscott welcomed guests from a wide variety of businesses, local government, and public services to meet with our Year 7, 8, 9, 10, and 11 MAP students.

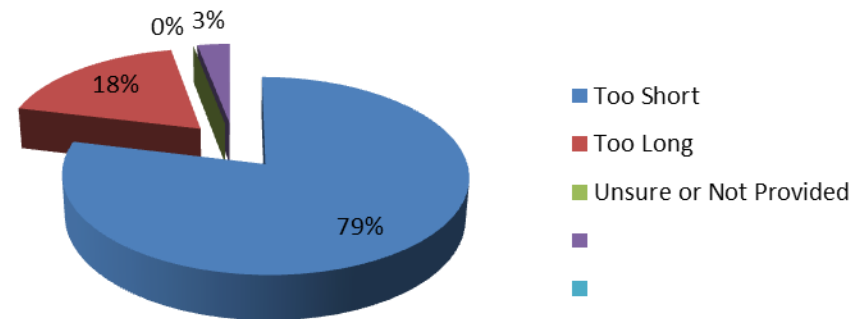

The aim of this day was to encourage students to explore a diverse range of career paths, and to give them the opportunity to discover routes into careers which they may not have previously considered.

Each interviewer was asked how useful they felt the event was to our students

Did you find this event useful for students?

Do you think the time allowed for questions and answers was:

These are some of the comments made by the Interviewers on the pupil evaluation sheets.

I think this type of event is a good idea. It is quite clear at times that students are very unsure of what direction they want to go in so hopefully these type of events can expand their choices or routes they travel down.

Felt really positive and at a good pace. Thanks for organising.

90% of students completely engaged and interested. 1-2 not so – to be expected. I think the students got something out of the conversation – I certainly did. I wonder if it is worth trying to write 1-2 sentences about what they care about and are passionate about before they arrive?

I always enjoy talking to your students – thanks for inviting me back!

Very useful event

Just right. Students should come prepared. Goal setting and 5 year plans were mainly discussed.

*Valuable
experience
engaging with
people outside
comfort groups.
A taste of the
world of work.*

Very well
organised,
the students
were
attentive
and overall I
believe this
to be
beneficial
for their
professional
growth.

ENJOYABLE EVENT, VERY WELL ORGANISED.

Good interactive event with students who were mainly very engaged. An hour session is quite long for interviews and students – consider 40 minutes!

I think 5 minutes is probably about right for this type of event, but I think it would be useful – and reassuring – for the students to hear how some of us got to where we are. There would be some fascinating tales!

Thought it was great that younger kids were exposed to interviews and that even kids who 'knew' what they wanted to do came.

I am not sure what the younger students got out of this - I hope that they found it was eye-opening! I think the older students got more out of it, but I think that even they are too young to be deciding their career choices at the moment.

Our students were given the opportunity to discuss a wide range of career paths.

Despite a few nerves, our students really seemed to enjoy the experience

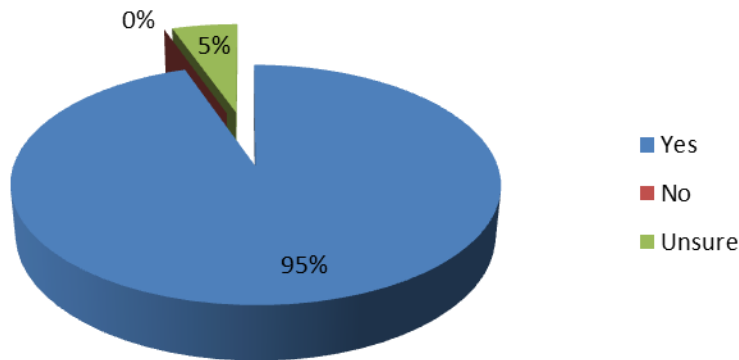

Each pupil was asked to complete a feedback sheet on the day's events.

Their feedback is detailed on the following pages:

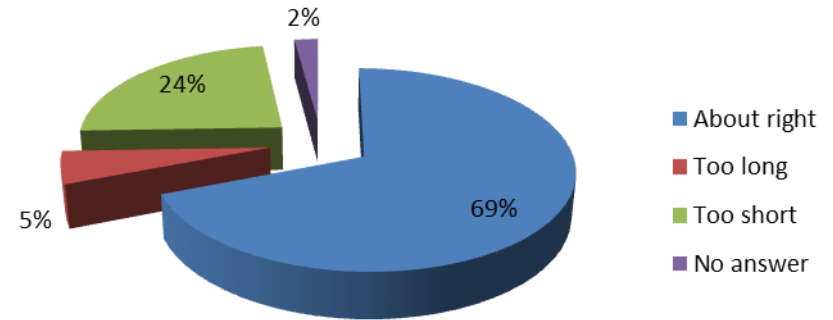

Pupil Evaluation

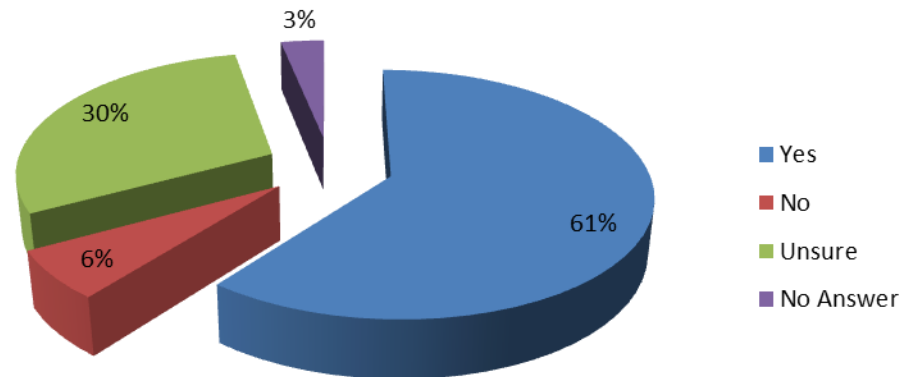

Did you find this event useful

The time allowed for questions and answers was:

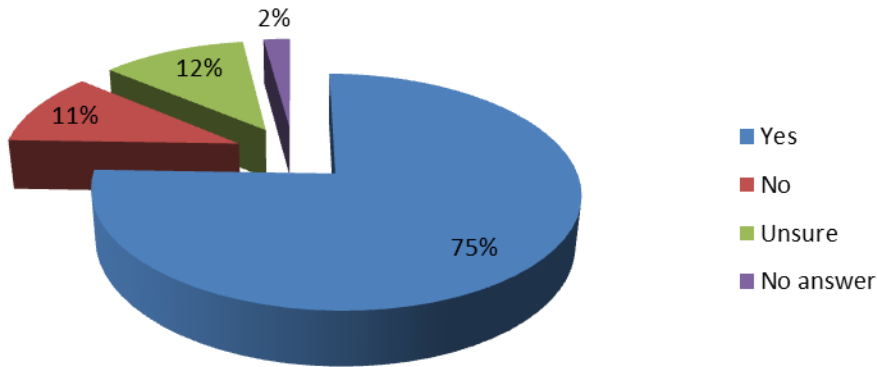

Has the event helped you to decide which subject options to choose?

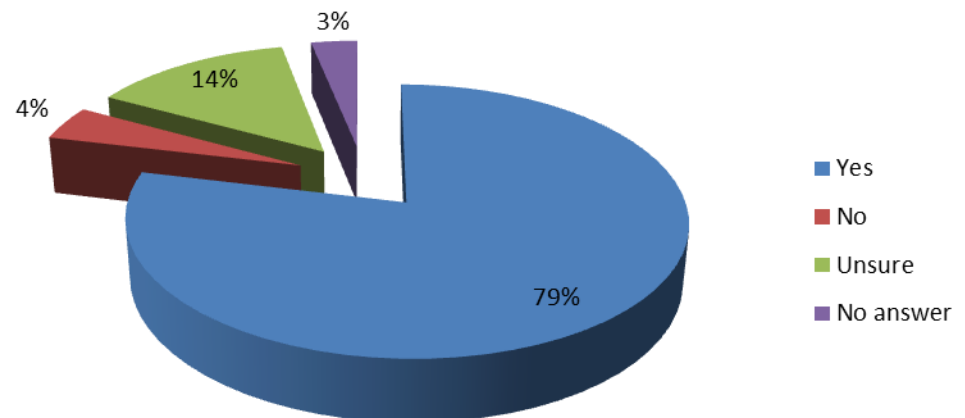

Pupil Evaluation

Were you able to find out more information about jobs you had not previously considered?

Has this event given you the information about what qualifications or training you will need to get the job

Each student was asked to
leave feedback and
suggestions on the day's
events.

These are just some of the comments...

Some feedback from our students.

Told me how to get into the job I would like to be in when I grow up.

I enjoyed it as I found it helpful as I learned about different jobs

It was very interesting.

very very helpful

Very useful and I hope to get opportunities like this again in the future

There should be more like this.

It was extremely helpful. Everybody was so polite and understanding. Thank you so much for this opportunity. It was so interesting learning about jobs I was not educated about

They related their topic to our future.

It was very good but more time needed.

**It helped to
make me
confident
about my aims**

*I liked how there
were different
jobs and they
helped you and
supported who
you want to be*

**It helped me find out
what job I wanted.**

It was really helpful. To
improve, I suggest the
layout to be different so
that similar jobs are in
one section of the hall.
Thank you.

It was really cool.

**I got to meet some
very awesome people
at the event.**

It was really good.

The day was a great and very enjoyable success. We would like to thank all of our interviewers.
